

50'S RETRO STYLE

For 70 years Smeg, based in Guastalla in the Emilia Romagna region of Italy, has been interpreting the demands of contemporary living to create domestic appliances which go beyond simple kitchen tools to become true furnishings and accessories, undisputed expressions of the best Italian design.

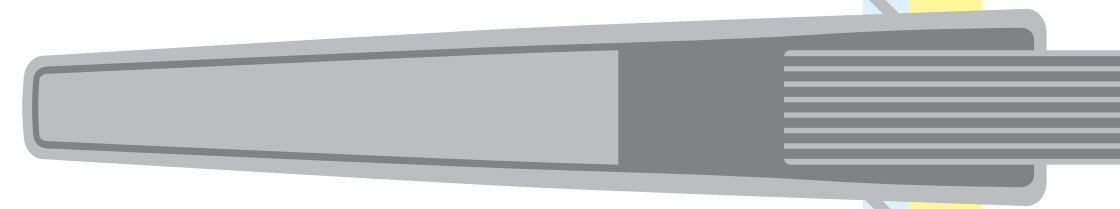

Thanks to an extreme focus on quality, functionality, aesthetics and ergonomics, Smeg has become synonymous with Italian style and quality, exporting Italian creativity, passion and design all around the world with pride.

50'S STYLE AESTHETICS

Smeg's 50's Retro Style line is a combination of technology and aesthetics, functionality and style, which evokes the unmistakable shapes and atmospheres of the 50's stylology.

Bright colours, rounded lines and retro styling are reinterpreted with a modern view to create products which become the stars of the kitchen.

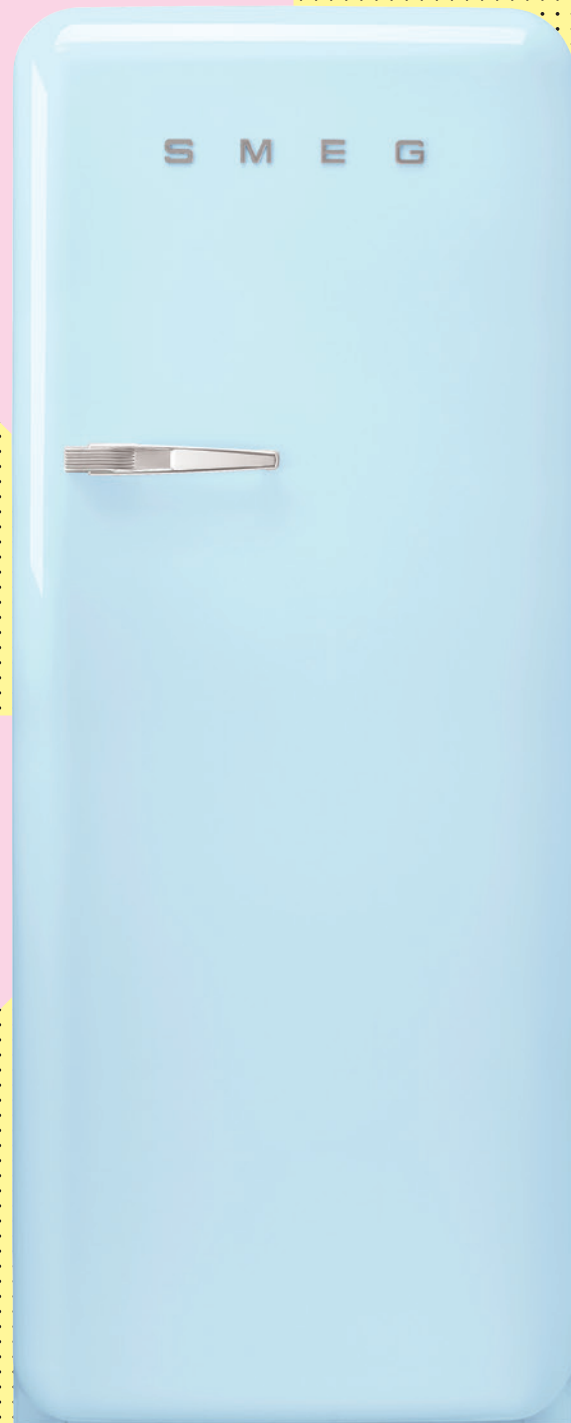

ICONIC DETAILS

Rounded curves and chrome-plated details perfectly co-ordinate the interior and outer door of the refrigerator.

A NEW SOUL

The range of refrigerators which have become a creative cult style icon is refreshed with interiors boasting innovative technological features and unmistakably refined details.

**A NEW
SOUL
FAB28**

FAB28

ELEGANT CHROME-PLATED TRIM

The profiles of the glass shelves and balconies feature shiny chrome-plated trim which draws on retro design to embellish the refrigerator's interior and inner door.

MULTIFLOW COOLING SYSTEM

The new cooling system distributes cold air in a uniform manner throughout the refrigerator, ensuring food is correctly preserved at each level without the need for defrosting.

VENTILATION SYSTEM

The air inside the refrigerator is constantly and homogeneously diffused in order to attain the ideal moisture level for food preservation.

FAB28

LED LIGHTS

The interior is lit by a LED strip which runs horizontally along the refrigerator walls. The uniform white light provides perfect visibility of the entire refrigerator, creating a very pleasant lighting effect.

ELECTRONIC TEMPERATURE CONTROL

The side thermostat offers electronic, and where required, manual temperature regulation, for personalised setting.

FAB28

LIFE PLUS DRAWER

This is a special zone with a temperature range of -2 - +3°C, lower than the set temperature, and ideal for keeping more perishable foods such as meat and fish.

FRUIT AND VEGETABLES DRAWER

The large bottom drawer is designed to keep fruit and vegetables fresh. It features a perforated panel which can be adjusted using the convenient slider to customise the compartment's level of ventilation and humidity. It is also fully transparent, making it easier to make use of the space and check the foods contained, giving it a clean and bright look.

FAB32

ELEGANT CHROME-PLATED TRIM

The profiles of the glass shelves and balconies feature shiny chrome-plated trim which draws on retro design to embellish the refrigerator's interior and inner door.

MULTIFLOW COOLING SYSTEM

The new cooling system distributes cold air in a uniform manner throughout the refrigerator, ensuring food is correctly preserved at each level without the need for defrosting.

VENTILATION SYSTEM

The air inside the refrigerator is constantly and homogeneously diffused in order to attain the ideal moisture level for food preservation.

FAB32

LED LIGHTS

The interior is lit by a LED strip which runs horizontally along the refrigerator walls. The uniform white light provides perfect visibility of the entire refrigerator, creating a very pleasant lighting effect.

ELECTRONIC TEMPERATURE CONTROL

The side thermostat offers electronic, and where required, manual temperature regulation, for personalised setting.

FAB32

LIFE PLUS DRAWER

This is a special zone with a temperature range of $-2 - +3^{\circ}\text{C}$, lower than the set temperature, and ideal for keeping more perishable foods such as meat and fish.

FRUIT AND VEGETABLE DRAWER

The large bottom drawer is designed to keep fruit and vegetables fresh. It features a perforated panel which can be adjusted using the convenient slider to customise the compartment's level of ventilation and humidity. It is also fully transparent, making it easier to make use of the space and check the foods contained, giving it a clean and bright look.

NO-FROST

Prevents the formation of ice in the freezer. Food is preserved correctly and retains its texture, taste and flavour.

FAB 28

50'S STYLE FRIDGE WITH ICE COMPARTMENT, RIGHT HAND HINGE, 60 CM

REFRIGERATOR

Multiflow Cooling System
Fresh food capacity: 244 l (223l + 21 chiller)
Life plus zone -0°C
LED internal light
3 adjustable glass shelves
Glass crisper cover
Fruit and vegetables drawer on sliding rails
Inner door with 1 adjustable shelve and 1 bottle
shelve with wire support

FREEZER

4 stars rating
Frozen food capacity: 26 l

TECHNICAL FEATURES

Energy efficiency class A+++
Noise level: 38 dB(A)
Energy consumption: 139 Kwh per year
Freezing capacity: 2 Kg/24h
Thaw time: 12 h
Dimensions (HxWxD): 153x60x72,8 cm
