5 Class

Strength & Sophistication

U-Line is proud to introduce, for the first time ever, a line of products featuring stainless steel - inside and out.

The 5 Class Collection of products includes 42 models that showcase exclusive features & industry leading innovations. Key highlights include an industry exclusive full-depth lower interior that maximizes storage options. All models include an industry leading variable speed compressor delivering maximum energy efficiency, faster temperature responses, and quieter operation.

Make it Your Own

Our 5 Class products are designed with the homeowner in mind, paying close attention to details homeowners are looking for such as Slide & Secure™ Bins and soft close doors. Each model features our U-Adjust™ 19-point adjustable interior allowing you to configure wine racks and bins the way you want. With stainless steel and integrated finish options, these products can be both used in built-in and freestanding applications. All products are available in 15", 24", and industry exclusive 18" widths for limitless design possibilities.

Nugget Ice Machines

Nugget Ice Machines Designed With in Mind

U-Line is excited to introduce a brand new collection of Nugget Ice Machines. Our Nugget Ice Machines provide unsurpassed performance with industry exclusive features such as the highest ice production of up to 90 lbs. of ice per day, select models with U-Choose™ ice adjustability, and premium models with interior water dispensers. We designed this collection in collaboration with Follett® LLC, the world leader in commercial nugget ice technology. Options include indoor, outdoor, and ADA height compliant models that can be built-in or freestanding to personalize your space.

The addition of the Nugget Ice Machine Collection further solidifies U-Line as the leader in undercounter ice products. We patented the first residential Crescent Ice Maker in 1962, and in 1998 introduced our Clear Ice Machine.

To ensure the highest quality in the industry, every ice machine undergoes a minimum of overnight ice production and a 40+ point inspection. All U-Line Ice Machines are designed, engineered, and assembled in Milwaukee, Wisconsin, USA.
